Maximum Cap Rate:

The Maximum Cap Rate for any Distribution Date and each class of Adjustable-Rate Certificates is calculated in the same manner as the related Net WAC Rate Cap, but based on the Expense Adjusted Net Maximum Mortgage Rates of the applicable Mortgage Loans rather than the Expense Adjusted Net Mortgage Rates of the applicable Mortgage Loans, plus the excess, if any, of the then applicable maximum rate set forth in the related Interest Rate Corridor over the then applicable strike rate set forth in such Interest Rate Corridor (such excess to be adjusted for the mismatch, if any, between the applicable notional balance and the principal balance of the applicable Certificates for such Distribution Date).

Coupon Step-up:

After the Optional Termination Date, if the Master Servicer (or NIMs Insurer, if any) fails to exercise its right to terminate the Trust, the certificate margins on any then outstanding Certificates will increase according to the following:

| <u>Class</u>         | After Optional Termination |
|----------------------|----------------------------|
| Class A Certificates | 2 x Applicable Margin      |
| Class M Certificates | 1.5 x Applicable Margin    |

**Net WAC Rate Carryover** Amount:

For any Distribution Date, (i) the excess of (a) the amount of interest a class of Certificates would have accrued for such Distribution Date had the applicable Pass-Through Rate not been subject to the Net WAC Rate Cap, over (b) the amount of interest such class of Certificates accrued for such Distribution Date based on the Net WAC Rate Cap, together with the unpaid portion of any such amounts from the prior Distribution Date and (ii) accrued interest thereon at the then applicable Pass-Through Rate, without giving effect to the Net WAC Rate Cap. The Net WAC Rate Carryover Amount will be paid first, from payments, if any, made under the related Interest Rate Corridor and second, from Net Monthly Excess Cashflow on a subordinated basis on the same Distribution Date or in any subsequent period. The ratings on each class of Certificates do not address the likelihood of the payment of any Net WAC Rate Carryover Amount.

Interest Rate Corridors:

The following Certificates will have the benefit of an interest Rate Corridor as specified below:

| <u>Class</u>           | Number of Months | Beginning Distribution Date |
|------------------------|------------------|-----------------------------|
| Group I Certificates   | 29               | May 2005                    |
| Group II Certificates  | 34               | May 2005                    |
| Group III Certificates | 34               | May 2005                    |
| M                      | 34               | May 2005                    |

Interest Carry Forward Amount:

For each class of Class A and Class M Certificates, on any Distribution Date, the sum of (i) the excess of (a) the accrued certificate interest for such class with respect to the prior Distribution Date (excluding any Net WAC Rate Carryover Amount with respect to such class), plus any unpaid Interest Carry Forward Amount from the prior Distribution Date, over (b) the amount actually distributed to such class with respect to interest on such prior Distribution Date and (ii) interest on such excess at the Pass-Through Rate for such class.

Available Funds:

For any Distribution Date, the sum, net of amounts reimbursable to the Master Servicer or the Trustee, of: (i) the aggregate amount of scheduled monthly payments on the Mortgage Loans due during the related Due Period and received on or prior to the related Determination Date; (ii) unscheduled payments in respect of the Mortgage Loans (including prepayments, insurance proceeds, liquidation proceeds, subsequent recoveries and proceeds from repurchases of and substitutions for the Mortgage Loans occurring during the related Prepayment Period or proceeds from the repurchase of the Mortgage Loans due to the Optional Termination of the Trust); (iii) all Master Servicer Advances with respect to the Mortgage Loans received for such Distribution Date and (iv) all compensating interest paid by the Master Servicer in respect of prepayment interest shortfalls for the related period.

Allocation of Losses:

Any Realized Losses on the Mortgage Loans on any Distribution Date will first be absorbed by the Class CE Certificates. If on any Distribution Date as a result of Realized Losses on the Mortgage Loans, the aggregate certificate principal balance of the Class A and Class M Certificates exceeds the aggregate principal balance of the Mortgage Loans as of the last day of the related Due Period, such excess (the "Realized Loss Amount") will be allocated in the following order: Class M-11, Class M-10, Class M-9, Class M-8, Class M-7, Class M-6, Class M-5, Class M-4, Class M-3, Class M-2 and Class M-1. There will be no allocation of Realized Losses on the Mortgage Loans to the Class A Certificates or the Class P Certificates. Investors in the Class A Certificates should note, however, that although Realized Losses cannot be allocated to such Certificates, under certain loss scenarios there may not be enough principal and interest on the Mortgage Loans to distribute to the holders of such Certificates all principal and interest amounts to which they are then entitled. Once Realized Losses are allocated to the Class M Certificates, such amounts with respect to such Certificates will no longer accrue interest. However, the amount of any Realized Losses allocated to the Class M may be distributed to the holders of those Certificates from Net Monthly Excess Cashflow, sequentially, as described in the Pooling and Servicing Agreement.

Net WAC Rate Cap:

<u>Class A Certificates</u>: The per annum rate (in each case, subject to adjustment based on the actual number of days elapsed in the related Interest Accrual Period) equal to the weighted average of the Expense Adjusted Net Mortgage Rates of the Mortgage Loans in the related loan group.

Class M Certificates: The per annum rate (subject to adjustment based on the actual number of days elapsed in the related Interest Accrual Period) equal to the weighted average (weighted in proportion to the results of subtracting from the aggregate principal balance of each loan group the current principal balance of the related Class A Certificates), of (i) the weighted average of the Expense Adjusted Net Mortgage Rates of the Group I Mortgage Loans, (ii) the weighted average of the Expense Adjusted Net Mortgage Rates of the Group II Mortgage Loans and (iii) the weighted average of the Expense Adjusted Net Mortgage Rates of the Group III Mortgage Loans.

Pass-Through Rate:

For the Adjustable-Rate Certificates and any Distribution Date, the lesser of (x) the related Formula Rate for such Distribution Date and (y) the related Net WAC Rate Cap for such Distribution Date.

Formula Rate:

For any Distribution Date and any class of Adjustable-Rate Certificates, the lesser of (i) LIBOR plus the applicable certificate margin and (ii) the related Maximum Cap Rate.
